Setting/Changing the server icon
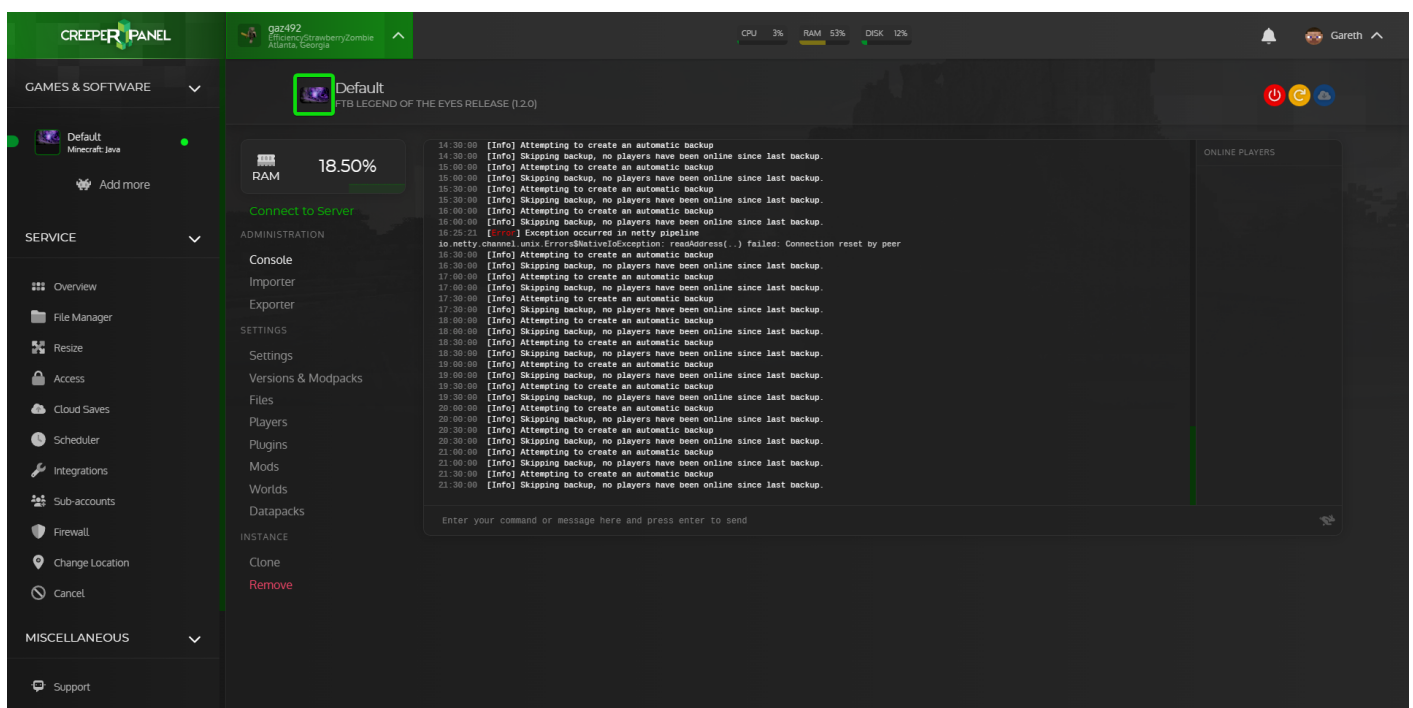

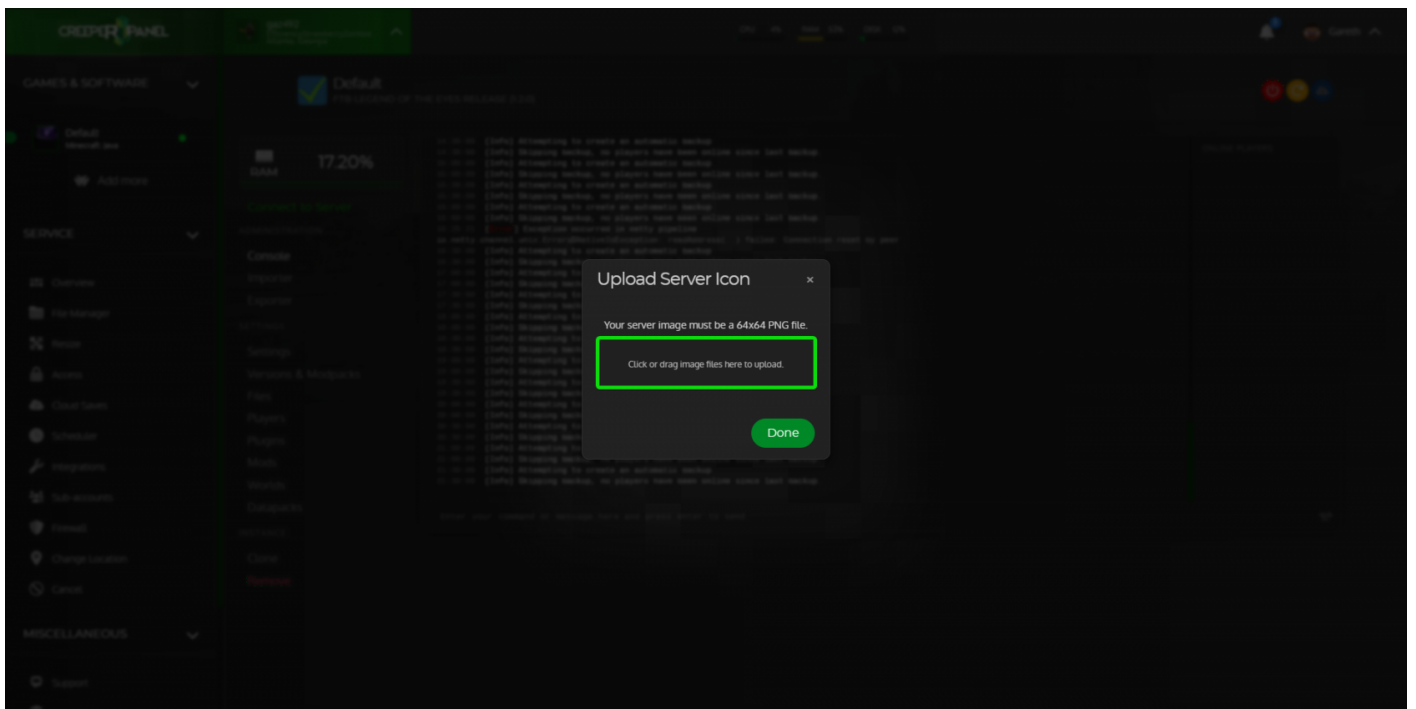

If you are struging to find your minecraft server please take a look at the following guide.

1. Go to your minecraft server on the panel, then click on the image that's to the left of the instance and modpack name.

2. A popup will open that will ask you to either click in the highlighed box or drag an image into the box.
The image you upload **MUST** be 64x64 in size and a PNG.

3. After clicking done, you will see that the icon next to the instance and modpack name will change to the image you uploaded.
