

Enabling and opening the console

In order to open the console in Valheim you will need to enable the console by following the steps below

1. Open steam and right click on Valheim and click on **Properties**

- 2 In the **Launch Options** add `-console` then close the properties window.

3. Start Valheim and connect to your server.

4 Once connected press **F5** on your keyboard and it should open the console where you can issue commands.
